

FINANCIAL SERVICES

A smarter way to invest in your bodyshop

- **Get the equipment you need - right now**
With only a fixed monthly fee to pay, getting access to high-end, high-tech equipment is now a real possibility.
- **Pay smarter**
Leasing fees are treated as operating expenses so do not impact your balance sheet.
- **Grab a competitive edge**
The ability to update to the most recent technology could provide you with a significant competitive advantage over your competition.

Axalta Drivus supports professional refinish bodyshops with innovative services, helping them to optimize their processes and increase their efficiency and profitability.

IMPROVE EFFICIENCY WITH AXALTA DRIVUS FINANCIAL SERVICES

Axalta Drivus Financial Services makes it simpler for your bodyshop to invest in the latest equipment to build a more profitable, efficient, and future-proof business. Enabling you to transform your business with minimum up-front capital investment and lower ongoing operational costs.

01 

EASY ACCESS - RIGHT NOW

Install the latest technology for bodyshops and start reaping the rewards of increased production and efficiency.

02 

MINIMAL UP-FRONT INVESTMENT

Invest smarter. Lease fees are accounted for as operating costs and have no bearing on your balance sheet.

03 

ACHIEVE FAST ROI

Rapid return on investment thanks to repair work optimization and improved work capacity.

04 

TAILOR THE SERVICE TO FIT

Contracts are tailored to fit individual customers, so you get just what you need. The 'all inclusive' service even includes annual maintenance fees allowing you to concentrate 100% on your core business.

How it works

Your Axalta Drivus expert will analyse your present equipment needs and configuration before identifying and suggesting suitable lease service solutions. These will serve as the foundation for the proposed lease package options. Following your expression of interest in a financial service, the bank will prepare a lease agreement.* Then you're good to go!

*requires bank's formal approval
